### SUMMARY OF INFORMATION

During this session, I first saw the object which was identified as an airplane in the previous sessions. The top was spinning very fast and it was flying at an extremely fast rate. It was flying up and down and it was following a specific path. There were objects inside the plane that looked like square pads and they could eject from the plane while the plane was moving.

I then was in an area that had low hills and mountains in the background. The land was brown and dusty. The area was arid and dry. I could see men <sup>e</sup>sitting up an object on a rather small hill and then they left. The object was not the airplane previously described but it looked like a gun turret. The word "boxing" phonetically surfaced here.

Then I could see a man who was in confinement. He was a young man with black hair but he looked older because his face was withdrawn and he was very thin and boney. He wore an ugly brown cotton drab dress. At one point he walked over to some large brown stones and tried to put his ears up to the stones to see if he could hear something or see something.

I then saw a young man with black long hair and a moustache sitting behind the wheel of a van or truck. He looked very mean. He was dressed in civilian clothes. His role was that of a driver. He was carrying out a pre-planned mission.

I then could see a large mansion sitting behind a gate.

There were mountains in the background. I could see a gray car driving down the long drive way.

It seemed that the people I saw were involved in planning or setting up some type of activity. The activity included transporting something and then waiting for it to happen. There was money involved.

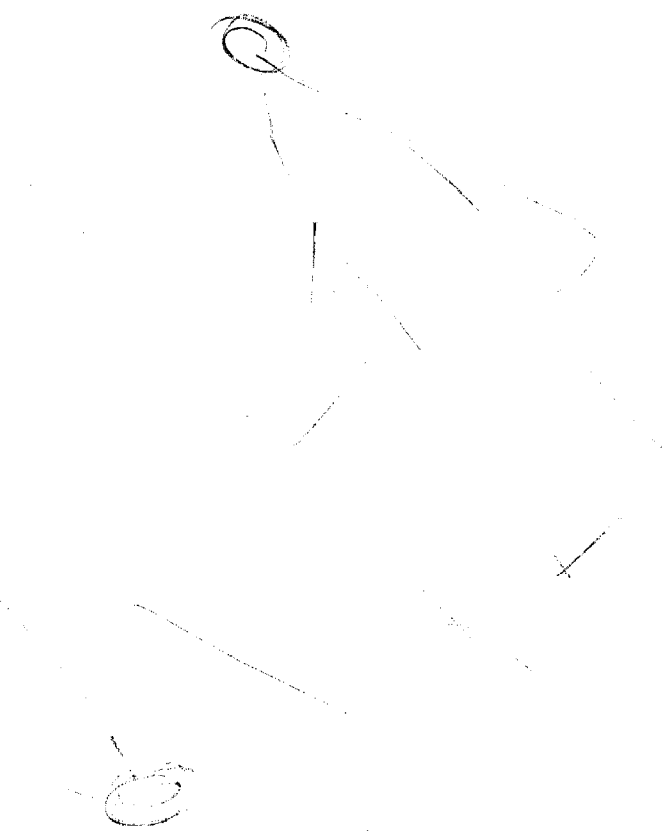

I could also see half moons or crescents. This could have been symbolic in some way.
